

Onboarding with InTouch.

Suveto and InTouch are working together to schedule the transfer of all Suveto practice websites onto InTouch's servers. Once your site is transferred onto InTouch's servers the onboarding process will begin.

If your practice has time sensitive website edits prior to being transferred please contact Frankie Parra at frankie.parra@suveto.com

1

Your new Account Manager from InTouch will introduce themselves and schedule an account review meeting.

2

In advance of the account review meeting, our team will conduct an in-depth analysis on the current digital presence of your practice.

3

During the account review meeting we will establish point of contacts and review the results of our in-depth analysis. We will then ask you about your practice's goals and expectations for our services.

4

After the meeting, our team will use the information gathered to develop a recommendation for custom strategy utilizing our services to help reach your practice's goals.

5

Congrats! You're now onboarded and able to request website changes, such as updating photos, employee bios, hours, etc.

Let's make **beautiful marketing together.**
